## Free HD Video Production *or* 25% off any of our Services

Tourist Network produces and distributes captivating and inspirational videos which are shown on large display screens installed at Tourist Information Centres, hotels, transport hubs and at other tourist attractions. With 20 sought after locations in the South East region alone, there's always somewhere near your tourism business to showcase your video directly to the tourist demographic you are targeting.

Prices start from £29 per month to appear at a location, with 20,000 guaranteed plays per year. Check our website or call the Tourist Network staff to establish which locations will work best for you. Once a bespoke package of locations is selected, you will be entitled to a free video production (worth £595) when the order exceeds £495. Otherwise receive a 25% discount from the list prices.

Since 2005, our team of video production professionals has produced over 500 videos for tourist destinations, attractions, markets, transport operators, hotels and restaurants. Our clients include Madame Tussauds, The O2 Arena, National Trust and the National Maritime Museum. All our videos can be used on your website and are uploaded to VisitBritain.com and YouTube as desired. If you already have a suitable video you wish to show, why not use this and benefit from our special Tourism South East members 25% discount for screening packages.
